

Walkie-Talkie Simplicity. Total Connectivity for Work Teams.

ZelloWork is a live voice push-to-talk app that enables instant and secure communication for organizations of all sizes. We believe that voice carries meaning, intent, and emotion. By understanding each other clearly, coworkers can be more collaborative and productive.

Why People Love the App

Connect and collaborate in real time: See user availability status, push to talk for live voice, or send photos, call alerts, and text messages- all in one place.

Never miss a thing: Receive push notifications for missed messages and re-play messages with the History feature.

Secure what matters: Trust complete end-to-end security using digital signature and voice encryption.

Find the best fit: Choose from our catalog of preapproved hands-free accessories for safety and convenience. Easily configure a hardware button for a true push-to-talk feel.

Work efficiently anywhere: Use less data than comparable tools. The app is available in 22 different languages.

Stay connected to your team: The app works with any WiFi or mobile data connection.

How We Simplify Management

Centralize and streamline administration: Control organization-wide communication from any web-based browser with our Management Console.

Customize to your business: Configure group channels in nearly infinite ways and monitor multiple channels all at once.

Scale as you grow: Add an unlimited number of group channels with up to 3,500 users each.

Locate people with precision: View all users on real-time maps with Location Tracking or record location history with optional Premium Maps.

Protect confidential communications: Control access to sensitive conversations by creating private networks.

Keep ironclad records: Archive each and every message with our optional Message Vault.

How it Works

-  1 Set up your network of group channels and customize who talks to whom.
-  2 Install ZelloWork on connected devices and point the app at your network.
-  3 Push to talk! Enjoy instant live voice or even send images and texts.

By using ZelloWork on iPads alongside our in-store apps, sales associates can fully transact from anywhere in the showroom, making the sales experience quicker and more accurate for everyone.

Supported Devices

Android 4.0.3+
iOS 8.0+
Windows CE 5.0+
Windows desktop XP+
LMR/Two-way radio and pre-approved gateway

Works With Accessories

Accessories allow Zello users to hear clearly in exceptionally loud environments and to go hands-free behind the wheel. We work with vendors on a regular basis to test and certify that their devices and accessories work with Zello and have true push-to-talk capability, while locked and running in the background.
